

1953 GMC TANKER

The 1953 tanker was purchased in 1959 or 1960 and was converted from an Army gasoline supply tanker. It held 1200 gallons of water and a portable pump was later installed in a side compartment.

The hose reel was taken off the 1963 Seagrave Aerial shortly after its purchase and installed on the tanker.

The 1953 Tanker was sold to the Lower Augusta Township Fire Department in 1989.
